2800

lb of food, including veterinary diets

about

\$900

were saved by negotiating the prices

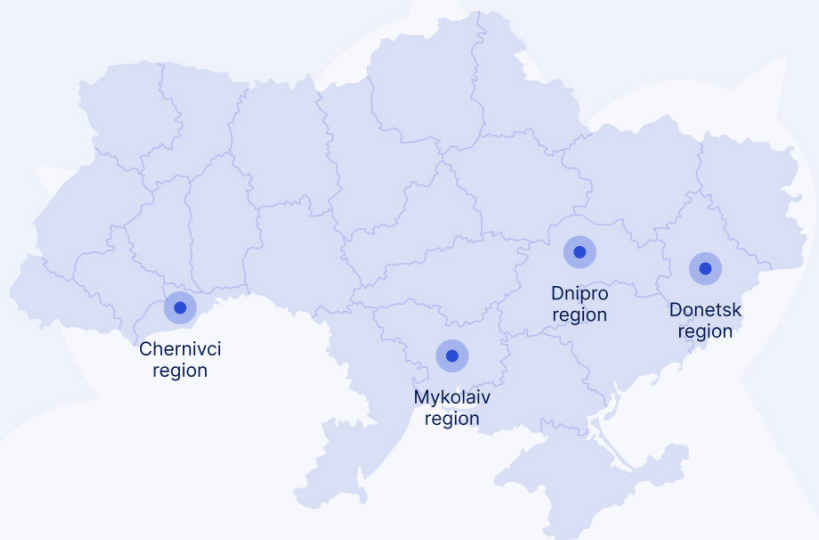

350

cases of medical treatment, including sterilizations

LOCATIONS

Dear Donors and Supporters,

I wish you could see and hear the reactions of those who received your help – it was a profoundly moving experience. There were tears of happiness, endless expressions of gratitude, and most importantly, the return of hope in their eyes. Your kindness has done more than just make a difference; in most instances, it has prolonged the lives of our four-pawed friends and reignited a sense of hope where it was most needed.

With deepest gratitude,
Yana
UHS

Special Thanks to Our Dedicated Volunteers in Ukraine 🇺🇦

A non-profit that cares for the local, often forgotten small shelters run by older, less tech savvy people that are devoting their last years to our 4-pawed best friends.
I support them through this organization, as others just DON'T.

The FreeAnimals team are grateful to Ukraine Humane Society for their timely financial assistance, especially during critical moments like the tragedy in Kherson. This support enabled us to save more lives and make a difference in the face of adversity. Thank you for standing by us and being a part of our mission to protect and care for those who need it most.

I've known this organization for a while now, and am very impressed by their impact on the smaller shelters that no one else notices, but needing so much help.
I know my donations are saving many furry lives that would otherwise be forgotten.
Thank you for what you're doing, despite all the challenges imposed by the war.

Our organization, "Paws in Palms," served its mission under shootings and rockets in the Luhansk region, and it was during these dire times that Ukraine Humane Society came to our aid. When our volunteer, Natasha, was in misery and had almost lost her hope, UHS delivered 440 kg of dry food and funded a few sterilizations. Despite the challenging circumstances, we were able to carry out these essential tasks thanks to the support from UHS.
